

Lab Vouchers

For the past 25 years, I have kept an agreement with Pathlabs Inc. that I can purchase very low cost testing as long as it is paid in advance and does not utilize insurance.

Procedure Cost Table

WellnessRx	THE TOLEDO CLINIC	PROMEDICA FLOWER HOSPITAL	PROMEDICA TOLEDO HOSPITAL	PROMEDICA BAY PARK HOSPITAL	MERCY ST. VINCENT	MERCY ST. ANNE'S	MERCY ST. CHARLES
\$10.00	Amylase \$14.48	\$197.00	\$197.00	\$197.00	\$173.00	\$227.00	\$193.00
\$13.00	CBC w/Diff \$20.06	\$150.00	\$150.00	\$150.00	\$196.00	\$256.00	\$243.00
\$18.00	Comp Met Panel (CMP) \$26.06	\$418.00	\$418.00	N/A	\$411.00	\$567.00	\$523.00
\$13.00	Urine Culture \$22.00	\$193.00	\$193.00	\$193.00	\$143.00	\$160.00	\$218.00

All testing must be paid for in advance before the voucher is provided due to extremely low margins.

125 tests are available at prices below any one else in the country. You can do nearly the same prices at Mail Order Labs but with far less convenience and limited choices. You don't need any diagnosis or codes for this lab. Download the attached listing for future reference so you can always compare. I will always be cheaper.

Why would you do this when you have insurance?

- 1- A Vitamin D25 test is \$700 and is usually rejected due to poor coding by the doctor's office. It happens all the time and now you get billed the entire amount! It's safer to pay cash for \$45!
- 2- Your co-pay is \$2000 and you don't plan on any other health care for the year. Again, at 5 cents on the dollar, you are for sure better off to pay cash. And, you have to pay your co-pay at your doctors office to get the lab slip.
- 3- You have already had your PSA checked and the urologist says he wants one every month for 3 months but Medicare only allows one a year. Better \$28 times three than \$1800 in uncovered expenses.
- 4- You want tests your doctor won't order. Get his slip, then go to Pathlabs with your voucher and their slip.
- 5- This is what you can't do! Use your insurance then go back and wish you'd done a voucher. Plan ahead.

EMAIL Dr. Nielsen at wellnessrxjay@gmail.com with a list of tests or send a photo of your lab slip from your doctor.
